Hello Ilson da Silva Rezende (Not Ilson da Silva Rezende?)

Amazon Marketplace Web Service (Amazon MWS)

Treat your Secret Key and AWS Access Key as confidential information

It is important to keep your Secret Key and AWS Access Key confidential to protect your account. You should never share these keys with anyone, including communications with Amazon (we would never ask for them), embedding them in a desktop application, or sending via e-mail.

Congratulations!

You can now access your Amazon Seller account with MWS

These are your Account Identifiers and Credentials, which you will need to make successful MWS requests. You can also view and manage these credentials on the Amazon MWS Developer Permissions page.

Note: To help make sure your Amazon MWS authorizations are up to date, from time to time we may ask you to re-confirm the developers and applications you have authorized. You can learn more about our Developer Access Confirmation program here. You will receive an email with a button to click to finish enabling the program.
